

May 2016

Dear Resident,

We hope you are all enjoying the wonderful weather that spring has finally brought!

At this stage in redevelopment there is not much new information to share, but we will continue to send letters every other month to keep you informed and will increase the frequency as more information becomes available.

As you may know, in 2012 the City of Alexandria approved the Beauregard Small Area Plan and the redevelopment and renovations that will eventually take place will be consistent with that plan.

The first phase of redevelopment at Mark Center will include a mixed-use town center that will offer new apartments as well as quality neighborhood amenities such as retail, restaurants, services and green space for community events and gatherings.

It is important to remember that Phase 1 of construction will occur gradually over a number of years and no development will begin before 2018. In order to keep residents informed, The JBG Companies plan to notify any residents who will be affected at least nine months prior to any redevelopment activity as well as send out the required 120-day advance written notice to residents.

For more information and to sign up for our email list, please visit www.MarkCenterInfo.com.

As always, we thank you for your patience!

Sincerely,
The JBG Companies
