

March 2014

Dear Resident:

Last May, the City of Alexandria voted to approve the required zoning needed to implement the City's Beauregard Small Area Plan. The plan is intended to guide the redevelopment of the City's West End over the next 30 years.

It is anticipated that the first phase of redevelopment will be the Town Center. This phase will include a variety of new amenities such as a new grocery store plus additional shops, restaurants and neighborhood services. These enhancements are intended to provide quality amenities that are located within a short distance from all residents.

The JBG Companies continues to work through its plans and no redevelopment will occur until at least, late 2015. We want to assure all of our Mark Center residents that no one will be forced to leave the Mark Center community and anyone affected by the redevelopment will have the opportunity to move to another apartment within Mark Center and will be offered a relocation allowance.

Please visit our website ([www.MarkCenterInfo.com](http://www.MarkCenterInfo.com)) for more information and to sign up for electronic notices

Sincerely,

The JBG Companies
