

February 2014

Dear Resident,

In our continued effort to keep Mark Center residents informed, we are pleased to let you know that Global Foods has begun interior renovations in the former Giant space and it anticipates opening early spring.

Global Foods will serve as a convenient shopping option for our residents and broader community. The store will sell fresh vegetables, fruit, meat and fish along with a variety of Korean, America, Chinese, Japanese, Vietnamese, and Central American and South American foods.

We continue our exploration into implementing the first phase of redevelopment. As these plans progress we will keep you updated but as we have noted before, no redevelopment will occur until 2015.

We thank you for your continued patience and understanding. Please visit our website (www.MarkCenterInfo.com) for more information and to sign up for electronic notices.

Sincerely,

The JBG Companies
