

November 2014

Dear Resident,

The plans for the first phase of redevelopment at Mark Center were very well received by the Beauregard Design Advisory Committee and will move forward as presented this past summer. There are no further updates to share regarding the redevelopment process at this time.

This first phase will feature a new mixed-use Town Center, which will be the most urban of all the Beauregard neighborhoods. The Town Center will be home to new apartments and amenities such as a full-service grocery store, new shops, restaurants, neighborhood services and a green space for community events. These enhancements are intended to provide quality neighborhood services and destinations located only a short distance from all residents.

It is important to remember that actual construction of Phase I will occur gradually over a number of years and no redevelopment will occur before late 2015. The JBG Companies will notify all affected residents at least nine months prior to any demolition in addition to the official required written notice 120 days in advance.

We will continue to provide information to all residents on a regular basis. In the interim, please visit www.MarkCenterInfo.com to learn more or to sign up for electronic updates.

Sincerely,

The JBG Companies
