

June 2014

Dear Resident:

In our continued effort to keep our residents informed, we would like to take this opportunity to update you on the first phase of redevelopment at Mark Center.

JBG is currently working on concept plans for this first phase, which includes the redevelopment of the future Town Center that will offer new residences and amenities such as a full-service grocery store, new shops, restaurants, neighborhood services and a green space for community events.

It is still important to remember that this process takes time and that no redevelopment activity will occur until at least late 2015. Please be assured that no one will be forced to leave the Mark Center due to the redevelopment and residents affected will have the opportunity to move into another apartment within Mark Center and be offered a relocation allowance.

We also wanted to let you know that we are planning a resident meeting on **Monday June 16 at 7pm at the Pavilion** to provide an update on the concept plans and the redevelopment process. We hope that you can attend. If, in the event you are not able to attend, we will post updates on the website ([www.MarkCenterInfo.com](http://www.MarkCenterInfo.com)). As always, if you have any additional questions, please feel free to ask the resident managers.

Sincerely,

The JBG Companies
